Journal of Gastroenterology and Hepatology (1988) 3, 713–718

Subject index to volume 3

99mTc-stannous colloid; in assessment of acute Crohn's disease 93
α-fetoprotein; as marker of primary liver cancer 29
α_1-antitrypsin; as marker of primary liver cancer 29
abdominal scintiscans; in assessment of acute Crohn's disease 93
Aboriginal children; central Australian, lactose malabsorption in 63
abstracts of the Asian Pacific Association for the Study of the Liver 511, 667
achalasia; in New Zealand 247
acid secretion 441, 457
active liver cirrhosis 583
acute enteritis 63
acute gastroenteritis; lactose malabsorption 337
acute hepatitis; due to etretinate 663
acute pancreatitis; nutritional support in 483
adenine arabinoside 5'-monophosphate 143
adenocarcinoma 71
adenosine arabinoside 143
adoptive transfer; of normal murine spleen cells 361
adult coeliac disease 577
alcohol consumption 211
  as cause of cirrhosis 601
  as cause of liver disease 159
alcoholics; detection of HBsAg in 153
alkaline phosphatase isoenzyme I; as marker of primary liver cancer 29
anaemia; after total gastrectomy 253
ancient Egypt; hepatology in 489
angiomatous malformations controlled by ethanol sclerotherapy 355
animal model
  of duck hepatitis B infection 55
  of portal hypertension 510
anti-HBs responses after combined injection of hepatitis B vaccines 431
aspiration cytology in diagnosis of pancreatic mass lesions 71
aspirin; gastroduodenal damage 573
asymptomatic HBsAg carrier 19
atrial natriuretic peptide, α-human, levels in alcoholic cirrhosis 601
atropine; effect on exocrine pancreas and plasma cholecystokinin responses 451
auto-antibody levels in neonatally thymectomized mice 361
auto-antigen; in auto-immune chronic active hepatitis 199
auto-immune chronic active hepatitis 169, 177, 199, 361

Beethoven; Ludwig van, liver disease 211
benzodiazepine; in complex with GABA 387
bile acid; effect of infusion on reflux and secretion 557
bile-duct occlusion; effect of cholestasis 133
biliary secretion; and bile acid infusion 557
biological signal transduction disorder; cystic fibrosis 645
biological variability; pharmacogenetic aspects 623
biopsy; fine needle aspiration for pancreatic mass lesions 71
black pigment stones 279
bleeding
  upper gastrointestinal 497
  from gastric mucosa 635
bombesin
  antiserum 349
  regulation of gastrin release 349
bombesin-like immunoreactivity 349
book reviews 315, 411, 509
bowel disease; assessment using abdominal scintiscans 93
breath-hydrogen test; for lactose malabsorption 63

C-peptide of type I procollagen; measurement in viral hepatitis and liver cirrhosis 159
calcium-dependence of protein kinases in the rat 325
calmodulin-activation of protein kinases in the rat 325
capsicum; gastroduodenal mucosal damage 573
carbohydrate intolerance; in infantile gastroenteritis 337
carcinoma
  colonic 379
  endocrine gastrointestinal 379
  gastric 379
  gastrointestinal 379
  hepatocellular 413
  pancreatic 307, 379
  primary liver cancer 29
cell-mediated immunity; in adult coeliac disease 577
chemical sympathectomy; effect on gastrin release 349
chemotaxis of peripheral blood monocytes and intestinal macrophages in intestinal disease 117

chenodeoxycholic acid; influence of intraduodenal infusion on secretory and pressure activity 557
chilli ingestion; gastroduodenal damage 573
China
  duck hepatitis B virus 55
  hepatitis D virus 373
  peptic ulcer 345
Chinese patients; comparison of aqueous and emulsified diazepam in gastrointestinal endoscopy 127
cholangiocarcinoma; variations in Thailand 413
cholestasis; effect on hepatic glutathione and g-glutamyl transferase 133
cholesterol gallstones in cholelithiasis 279
cholelithiasis 279
chronic active hepatitis 177, 373, 425
chronic gastric, duodenal and ileal fistulae 83
chronic hepatitis 19, 37
chronic pancreatitis 211
chronic peptic ulcers; bleeding controlled by ethanol sclerosis 355
chronic persistent hepatitis; in China 373
cimetidine-induced fulminant hepatitis 223
cirrhosis
  alcoholic 153, 601
  and chronic hepatitis 37
  sodium retention in 601
  syphilitic 287
combined injection of hepatitis B vaccines; anti-HBs responses 431
computers and medical practice 187, 205
congestive gastropathy and hypertension 635
coronavirus-like particles in Aboriginal children with acute enteritis 63
correspondence 211
cow's milk protein; effect on recovery after infantile gastroenteritis 337
Crohn's disease
  assessment using 99m-Tc-labelled phagocytes 93
  in vitro chemotaxis of macrophages 117
cystic fibrosis
  disorder of signal transduction 645
  vasoactive intestinal peptide-immunoreactive nerve fibre deficiency 549

diarrhoea; in lactose malabsorption in central Australian Aboriginal children 63
diazepam; comparison of aqueous and emulsified 127
diet
  effect in infantile gastroenteritis 337
  effect in acute pancreatitis 483
dietary management of children with lactose malabsorption 63
digestive and nutritional status after total gastrectomy 253
diurnal variations in levels of pepsinogen A and C 319
DNA polymerase activity
  as marker of hepatitis B multiplication 139
  relationship with HBeAg titre 593
dogs; effect of atropine on exocrine pancreas and plasma cholecystokinin 451
drug metabolite-induced hepatocellular injury 133
drugs; variable side-effects 623
duck
  hepatitis B virus infection in Qitong, China 55
  liver diseases in China 55
duodenal ulcer
  prevalence in Shan Dong, China 345
  seasonal variation of 457
duodenitis; and chilli ingestion 573
duodenogastric reflux
  affected by infusion of bile acid 557
duodenostomy; site of neurotensin release 83

East Asian populations; hepatolithiasis 279
Echinococcus granulosis; hydatid disease 611
Echinococcus multilocularis; hydatid disease 611
ecogenetics and pharmacogenetics: biological variability 623
elemental diet; in acute pancreatitis 483
elimination; rapid and slow phenotypes 623
encephalopathy; hepatic; GABA/diazepine receptor-chloride ionophore complex 387
endogenous prostanoids; deficiency in ulcer disease 441
endoscopy
  gastrointestinal, use of diazepam 127
  haemostasis in 497
  therapy 355
enteral nutrition in acute pancreatitis 483
enteritis; acute 63
enzyme immunoassay of HBeAg 593
epidemiological study of achalasia in New Zealand 247
ethanol
  induced injury 227
  injection 355
  sclerosis 355
etretinate; as cause of acute hepatitis 663
exocrine pancreas; response affected by atropine 451
experimental hepatitis; persistence in neonatally thymectomized mice 361
expression of HBsAg and HBeAg in asymptomatic HBsAg carriers
  intrahepatic 19
  membranous 19
extrahepatic obstruction; portal hypertension 99
extrahepatic portal venous obstruction 421

fibroblast proliferating activity in chronic hepatitis and liver cirrhosis 37
fibrosis; cystic, signal transduction disorder 645
Filipino genome subtype; comparisons by nucleotide sequencing 215

fine needle aspiration biopsy of pancreatic mass lesions 71
fistulae; chronic duodenal, gastric, and ileal; for localization of site of neurotensin release 83
fulminant hepatic failure; hepatitis D virus in India 425
fulminant hepatitis
in Taiwan 1
induced by cimetidine 223
ongoing virus multiplication in type B 139

GABA/benzodiazepine receptor-chloride ionophore complex; in hepatic encephalopathy 387
gallstones, in cholelithiasis 279
γ-aminobutyric acid; in hepatic encephalopathy 387
γ-glutamyl transferase
affected by cholestasis in pig 133
isoenzyme II, as marker of primary liver cancer 29
gastrectomy
specimens studied for intestinal metaplasia and gastric carcinoma 239
digestive and nutritional status after 253
gastric carcinoma 239
in southern India 565
gastric mucosa; bleeding, and portal hypertension 635
gastric mucosal red spots 635
gastric secretion; affected by bile acid infusion 557
gastric ulcer
in Shan Dong, China 345
seasonal variation in 457
gastrin
intra-operative measurements in Zollinger-Ellison syndrome 111
release regulated by bombesin 349
gastritis 573
chilli ingestion 573
erosive 635
haemorrhagic 635
gastroduodenal mucosal damage; chilli ingestion 573
gastroenteritis; acute infantile 337
gastrointestine
bleeding, controlled by ethanol sclerosis 355
cancer of, manipulation by gut peptides 379
gastropathy
congestive 635
portal hypertensive 635
genetic defect; cystic fibrosis 645
genome
comparison of hepatitis B virus subtypes 215
nucleotide sequencing of hepatitis B virus subtype adw isolated from a Filipino 215
global health problem; hydatid disease 611
glutathione
levels affected by cholestasis 133
S-transferases 295
granuloma; associated with chemotactic migration in Crohn's disease 117
gut peptides; used to manipulate gastrointestinal cancer 379

haemochromatosis; genetic; effect of natural killer activity on peripheral blood lymphocytes 9
haemophiliacs; hepatitis B viral markers, in India 437
haemorrhagic gastritis 635
halothane-induced liver injury 465
HBcAg; in asymptomatic HBsAg carriers 19
HBeAg
and anti-HBe 1
in chronic hepatitis B 143
in fulminant hepatitis 139
quantitation by enzyme immunoassay 593
titre 593
HBsAg
asymptomatic carriers 19
detection in alcoholic patients by monoclonal radio-immunoassay 153
maternal carriage 1
HBsAg-positive liver cirrhosis; natural history 583
HBV DNA; in determination of HBeAg 593
hepatitis B virus markers; in Indian population 437
heat probe; for treatment of severe peptic ulcer haemorrhage 77
hepatic encephalopathy; GABA/benzodiazepine receptor-chloride ionophore complex 387
hepatic fibrosis; role of peripheral mononuclear cells 37
hepatic syphilis; historical review 287
hepatitis
acute 663
auto-immune 199, 361
chronic active 37, 169, 177, 373
chronic inactive 37
chronic persistent 373
experimental 361
fulminant 1, 223
fulminant B 139
halothane 307
luetic 287
hepatitis B 38
ongoing viral multiplication 139
hepatitis B infection in India 493
hepatitis B vaccines; combined injection, plasma derived and recombinant yeast 431
hepatitis B virus 139, 153, 215, 373, 425, 593
DNA 38
in Indian haemophiliacs 437
markers 437
hepatitis D virus
in China 373
in India 425
hepatocellular cancer 413
hepatocellular failure; hepatic encephalopathy as complication of 387
hepatolithiasis 279

hepatology
in the Valley of the Nile 489
use of computers in 205
hepatotoxicity; of etretinate 663
histological indices; in acute Crohn's disease 93
history
hepatology; in ancient Egypt 489
review; hepatic syphilis 287
hormonal manipulation; of gastrointestinal cancer by gut peptides 379
human large intestine 403
humans versus animals 403
hydatid disease; global health problem 611
hyperplasia; nodular regenerative 657

idiosyncratic mechanism of liver injury; caused by halothane 465
ileal resection; for localization of site of neurotensin release 83
ileostomy; for localiztion of site of neurotensin release 83
immunofluorescent staining; for expression of HBsAg and HBcAg 19
immunohistochemistry; in cystic fibrosis 549
immunological aspects; of chronic hepatitis 177
inactive liver cirrhosis; in Taiwan 583
India
haemophiliacs 437
hepatitis B and δ infection 493
hepatitis B virus markers 425, 437
hepatitis D virus infection 425
hepatitis δ infection 425
liver disease 437
viral hepatitis 493
infantile gastroenteritis; effect of diet 337
infection; hepatitis B and D 425
injury
ethanol-induced 227
sucralfate protection against 227
interferon; effect on serum HBeAg levels in chronic hepatitis B 143
interleukin-1; relationship with fibroblast proliferaing factor in chronic hepatitis and liver cirrhosis 37
intestinal lymphatics 261
clinical aspects 261
connecting intestinal lumen and circulation system 261
immunological aspects 261
morphological basis 261
physiological basis 261
intestinal macrophages; chemotaxis in intestinal diseases 117
intestine
effect on mucosa in cystic fibrosis 549
metaplasia of 239, 565
motility in 557
mucosa of 117
intraduodenal amino acids; effect on exocrine pancreas and plasma cholecystokinin 451
intraduodenal chenodeoxycholic acid; influence on secretory and pressure activity 557
intrahepatic calculi; hepatolithiasis 279
intrahepatic expression of HBcAg and HBsAg in asymptomatic HBsAg carriers 19
intralipid; localization of neurotensin release 83
intravenous sedation; upper endoscopy; comparison of aqueous and emulsified diazepam 127
ionophore complex; GABA/benzodiazepine receptor-chloride 387
irritable bowel syndrome; failure of peppermint oil in 235

jejunostomy; for localization of neurotensin release 83

lactose malabsorption in central Australian Aboriginal children; determined by breath-hydrogen test 63
large intestine 403
lesion; pancreatic mass; diagnosed by fine needle aspiration biopsy 71
lienorenal shunt; in extrahepatic obstruction 99
liver
carcinome 29, 413
cirrhosis 159, 211
damage 223
disease 38, 437
nodular regenerative hyperplasia of 657
liver cirrhosis
Ludwig van Beethoven 159
measurement of type I procollagen 211
prognostic factors in hepatitis B virus 583
liver diseases; ancient Egypt 489
liver injury; halothane-induced 465
liver-specific protein 37
liver-specific membrane lipoprotein 361
luetic hepatitis; historical review of hepatic syphilis 287
lymphatic system; clinical aspects of 261

Mackay; Ian R., tribute to 197
macrophages; migration in Crohn's disease 117
malabsorption; lactose; diagnosed by breath-hydrogen test in central Australian Aboriginal children 63
malnutrition
adult coeliac disease 577
in central Australian Aboriginal children with acute enteritis 63
mass lesions; pancreatic, diagnosed by fine needle aspiration biopsy 71
maternal HBsAg carriage; fulminant hepatitis in Taiwanese infants 1
membranous expression; of HBcAg and HBsAg in asymptomatic HBsAg carriers 19

metabolism
defects in 623
of xenobiotics 295
metaplasia of intestine 239
in India 565
microcomputer; use in medical practice 187
microlymphocirculation; intestinal lymphatics 261
monoclonal antibodies; for detection of HBsAg in sera of alcoholics 153
monthly variation; in frequency of active duodenal ulcer and maximal acid output 457
morphology of gastric cancer; in southern India 565
motility; in intestine 557
mucin; in gastric cancer 565
mucosa
bleeding in 307
damage 573
intestinal, in Crohn's disease 117
intestinal and nasal 549
multifunctional enzymes; glutathione S-transferases 295
multiple markers of primary liver cancer; α-fetoprotein, α_1-antitrypsin, γ-glutamyl transferase isoenzyme II, alkaline phosphatase isoenzyme I

National Health Statistics Centre in New Zealand 247
natural history; of HBsAg positive cirrhosis, in Taiwan 583
natural killer cells; in haemochromatosis 9
needle biopsy; diagnosis of nodular regenerative hyperplasia of the liver 657
neonatal thymectomy; suppressed function of spleen cells 361
neuropeptides; in cystic fibrosis 549
neuropsychiatric disorder; hepatic encephalopathy 387
neurotensin; localization of site of release 83
New Zealand; achalasia in 247
nodular regenerative hyperplasia of the liver 657
non-cholinergic local nerves; regulation of gastrin release by bombesin 349
nucleotide sequencing of hepatitis B virus genome isolated from a Filipino 215
nutritional support; in acute pancreatitis 483

Opisthorchis viverrini; in liver cancer in Thailand 413

pancreas
diagnosis of mass lesions in, by fine needle aspiration biopsy 71
secretion by 557
pancreatitis
acute 483
elemental diet 483
pathogenicity in hydatid disease 611
peppermint oil; for irritable bowel syndrome 235
pepsinogen A and C; diurnal variations in levels 319
peptic ulcer
bleeding, controlled by ethanol sclerosis 355
bleeding, treated by heat probe 77
in China 345
peripheral blood monocytes; chemotaxis in intestinal disease 117
peripheral mononuclear cells; role in hepatic fibrosis 37
phagocyte accumulation; in Crohn's disease 93
pharmacogenetics; biological variability 623
phenotypes; biological variability 623
phosphatidylserine; identification in rat small intestine epithelium 325
phospholipid-activation of protein kinases in rat 325
pig; effect of bile-duct occlusion on hepatic glutathione and γ-glutamyl transferase 133
plasma cholecystokinin; responses to aminoacids affected by atropine 451
plasma zinc levels; in adult coeliac disease 577
polymorphism
acetylation 623
hydroxylation 623
population biology; hydatid disease as world problem 611
portal hypertension
and bleeding from gastric mucosa 635
as symptom of nodular regenerative hyperplasia of the liver 657
caused by extrahepatic obstruction 99
effects on gastrointestinal tract 635
portographic changes with time 421
portal hypertensive gastropathy; effect of portal hypertension 635
portal venous system; splenoportovenography in extrahepatic venous obstruction 421
portographic changes with time; splenoportovenography in extrahepatic venous obstruction 421
post-gastrectomy syndromes; anaemia 253
primary liver cancer; multiple markers in 29
procollagen; type I C and type III N; in viral hepatitis and liver cirrhosis 159
prostaglandins in ulcer diseases 441
prostanoids in ulcer diseases 441
protein hydrolysate; effect of diet on infantile gastroenteritis 337
protein kinases; calcium-dependence, phospholipid- and calmodulin-activated 325
protein-losing enteropathy; changes in intestinal lymphatics 261

radio-immunoassay
intra-operative testing in Zollinger-Ellison syndrome 111

measurement of procollagen in viral hepatitis and liver cirrhosis 159
monoclonal, for HBsAg 153
rat
antral mucosa 349
gastric mucosa 227
small intestinal epithelium 325
referees 213
renal clearances; diurnal variations in pepsinogen A and C 319
renal handling of pepsinogen A and C 319
renal transplantation 38
report on symposium on animal models of portal hypertension 510
retention of sodium in alcoholic cirrhosis 601
Roux-en-Y reconstruction; digestive and nutritional status after total gastrectomy 253

sclerotherapy
using ethanol 355
variceal obliteration in extrahepatic portal venous obstruction 421
seasonal variation in active duodenal ulcer and maximal acid output 457
secretin test; during operation for Zollinger-Ellison syndrome 111
secretion of exocrine in cystic fibrosis 549
secretory and pressure activity; influence of bile acid infusion 557
selected summaries 307, 403, 501
sequencing; nucleotide; comparison of hepatitis B virus genome subtypes 215
seroconversion of HBeAg; spontaneous, in Taiwan 583
serum levels; diurnal variations in pepsinogen A and C 319
Shan Dong Province, China; peptic ulcer 345
signal transduction disorder in cystic fibrosis 645
skin tests in adult coeliac disease 577
small bowel mucosa repair 337
sodium retention in alcoholic cirrhosis 601
southern India; gastric carcinoma 565
soy protein; effect of diet on infantile gastroenteritis 337
splanchnic clearance; in alcoholic cirrhosis 601
splenectomy; for extrahepatic obstruction 99
splenoportovenography; changes with time 421
S-transferases; glutathione; role in metabolism of xenobiotics 295
stigmata of recent haemorrhage; peptic ulcers 77
stomach
deficiency of endogenous prostanoids in ulcer disease 441
effect of bile acid infusion 557
study of the liver; abstracts 511, 667
subacute hepatic failure; hepatitis D virus infection in India 425
subtyping; comparison of genomes of same subtype 215
sucralfate protection against ethanol-induced injury 227
sulphomucin secretion; as indicator of types of metaplasia 239
superinfection; hepatitis B and D virus infection in China 373
suppressor cells; defective as result of neonatal thymectomy in mice 361
surgical management of hydatid disease 611
syphilitic cirrhosis; historical review of hepatic syphilis 287
systemic circulation; intestinal lymphatics 261

Taiwan; cirrhosis in 583
technology; computers in medical practice 187
Thailand; liver cancer; temporal and geographical variations 413
thrombophlebitis as result of endoscopy 127
thromboxane deficiency in ulcer disease 441
Tigason; as cause of acute hepatitis 663
total gastrectomy; digestive and nutritional status following 253
total parenteral nutrition in acute pancreatitis 483
transplantation; renal 38
treatment of hydatid disease 611
tribute to I. R. Mackay 197
truncal vagotomy; effect on gastrin release by bombesin 349

ulcer
diseases 441
duodenal 345, 441, 457
gastric 345, 441, 457
peptic 77, 345, 355
upper gastrointestine
bleeding 77, 99, 421, 497
endoscopy of 127
treatment of bleeding in 497
urinary excretion; diurnal variations in pepsinogen A and C 319

variations
in pharmacogenetics 623
temporal and geographical, of liver cancer 413
varices 421
vascular system; intestinal lymphatics 261
vasoactive intestinal peptide; immunoreactive nerve fibres 549
deficiency in mucosa affected by cystic fibrosis 549
viral hepatitis
B and D infection in India 493
measurement of type I procollagen 159

xenobiotics; metabolism; role of glutathione S-transferases 295

zinc levels; in adult coeliac disease 577
Zollinger-Ellison syndrome; intra-operative testing 111

Contents

Number 1 January/February 1988

Liver and Biliary

1 Fulminant hepatitis in infants in Taiwan: Strong association with hepatitis B e antigen-negative but antibody-positive maternal hepatitis B surface antigen carriage *H-C. Hsu, M-H. Chang, C-Y. Lee and D-S. Chen*

9 The effect of iron, iron-binding proteins and iron-overload on human natural killer cell activity *D. E. Chapman, M. F. Good, L. W. Powell and J. W. Halliday*

19 Intrahepatic expression of HBsAg and HBcAg in asymptomatic HBsAg carriers and its follow-up *K. Kiyosawa, N. Yamamura, T. Sodeyama, H. Yoda, Y. Imai, H. Imai, S. M. T. Franca and S. Furuta*

29 Simultaneous determination of multiple markers of primary liver cancer: Diagnostic significance *J-W. Wu, X-Y. Meng, K-C. Xu, Y-C. Shi and Q. Wei*

37 The close relationship between interleukin-1 and fibroblast proliferating factor from peripheral mononuclear cells of patients with chronic hepatitis and liver cirrhosis *Y. Niitsu, Y. Kohgo, M. Bunya, K. Kohda, N. Itoh, M. Ohwada, K. Morita, K. Matsuura, N. Watanabe and I. Urushizaki*

47 Hepatitis B in renal transplant recipients: An assessment of the relationship of viral replication to liver pathology *M. J. Lawson, K. M. Fock, E. J. Gowans, T. H. Mathew and C. J. Burrell*

55 The relationship between duck hepatitis B virus infection and duck liver disease in Qitong, China *Q-Y. Wang, G-X. Yang and W-F. Ye*

Alimentary Tract and Pancreas

63 Lactose malabsorption in Central Australian Aboriginal children hospitalized with acute enteritis *G. R. Edgeley, G. P. Davidson, D. A. Goodwin, M. L. Ringenbergs, J. Erlich and T. A. Robb*

71 The diagnosis of mass lesions in the pancreas by fine needle aspiration biopsy *P. J. Hewett, S. LeP. Langlois and S. R. Orell*

77 Treatment of severe peptic ulcer haemorrhage with the heat probe *H-J. Lin, Y-T. Tsai, S-D. Lee, K-H. Lai, W-W. Ng, T-N. Tam, F-Y. Chang and C-H. Lee*

83 The localization of the site(s) of neurotensin release in man and dog *E. R. Eaves, M. G. Korman, J. Mercuri, F. Ward and J. Hansky*

93 The microscopic distribution of ^{99m}Tc-labelled phagocytes in resected bowel in patients with acute Crohn's disease: correlation with histological changes *F. D. L. Bartholomeusz, T. C. Durbridge, P. Drew, D. J. C. Shearman, R. Rowland, D. Hetzel, B. Chatterton and R. Baker*

Review Articles

99 Extrahepatic obstruction causing portal hypertension *G. K. Pande, P. Sahni and S. Nundy*

109 **Notices**

Number 2 March/April 1988

Alimentary Tract and Pancreas

111 Intra-operative secretin test for the rapid evaluation of curative operation in a case of Zollinger-Ellison Syndrome *T. Azuma, M. Imamura, Y. Shimada, H. Inokuchi and K. Kawai*

117 The function *in vitro* of macrophages from the intestinal mucosa of patients with Crohn's disease: An association between chemotactic migration and granulomata *A. Hermanowicz, P. R. Gibson, F. Pallone, C. H. Mason and D. P. Jewell*

127 Aqueous or emulsified diazepam in upper endoscopy: A randomized trial *S. C. S. Chung and J. W. C. Leung*

Liver and Biliary

133 Effect of cholestasis produced by temporary bile duct occlusion on hepatic glutathione and γ-glutamyl transferase levels in the pig *E. C. P. Shi, M. A. Rose and J. M. Ham*

139 Evidence of ongoing virus multiplication in type B fulminant hepatitis *B. M. Gandhi, M. Irshad, S. K. Acharya, Y. K. Joshi and B. N. Tandon*

143 The effects of antiviral agents on serum hepatitis B e antigen levels in chronic type B hepatitis *K. Kurai, S. Iino, K. Koike, K. Mitamura, Y. Endo and H. Oka*

153 Detection of hepatitis B surface antigen by a monoclonal radioimmunoassay in the serum of alcoholic patients *T. Poynard, P. Marcellin, J. Wands, S. Naveau, P. Dubreuil, J. Pillot and J-C. Chaput*

159 Measurement of carboxy terminal peptide of Type I procollagen in sera of patients with viral hepatitis and liver cirrhosis *Y. Niitsu, K. Koda, N. Ito, M. Owada, K. Morita, N. Watanabe, Y. Kohgo, S. Seifter and I. Urushizaki*

Review Articles

169 Auto-immune hepatitis: Lifting the seventh veil *I. R. Mackay*

177 Immunological aspects of chronic hepatitis *K. H. Meyer zum Buschenfelde, M. Manns and G. Gerken*

187 The microcomputer: A friend here to help and stay *F. Macrae and J. Lee*

Special Article

197 Tribute to Dr Ian R. Mackay *G. J. V. Nossal*

Editorial Comments

199 Auto-immune chronic active hepatitis: should we be searching for an elusive (auto) antigen? *P. C. Adams and L. W. Powell*

205 The impact of computers on the practice of gastroenterology and hepatology — The problem of clinical data *M. Ward*

211 **Correspondence**

213 **Referees**

Number 3 May/June 1988

Liver and Biliary

215 Nucleotide sequence of a hepatitis B virus genome of subtype adw isolated from a Philippino: Comparison with the reported three genomes of the same subtype *R. C. Estacio, C. C. Chavez, H. Okamoto, A. L. Lingao, M. T. Reyes, E. Domingo and M. Mayumi*

223 Short communication: Fulminant hepatitis induced by cimetidine *H. Kimura, K. Akamatsu, H. Sakaue, M. Nogawa and Y. Ohta*

Alimentary Tract and Pancreas

227 Sucralfate protection against ethanol-induced injury of rat gastric mucosa *in vitro* and *in vivo* *R. B. Sewell, D. Kim and N. D. Yeomans*

235 Failure of enteric-coated peppermint oil in the irritable bowel syndrome: A randomized double-blind crossover study *M. J. Lawson, R. E. Knight, K. Tran, G. Walker and I. C. Roberts-Thomson*

239 Intestinal metaplasia and gastric carcinoma: A histological study of 198 gastrectomy specimens *I. O. L. Ng, J. Ho and M. Ng*

247 Incidence of achalasia in New Zealand 1980–84: An epidemiological study based on hospital discharges *J. F. Mayberry and M. Atkinson*

253 Digestive and nutritional status after total gastrectomy with a long Roux-en-Y reconstruction *R. C. Smith, J. Hollinshead, Y. L. Eade, R. Holloway and D. J. Gillett*

Review Articles

261 Basic and clinical aspects of intestinal lymphatics *M. Tsuchiya and S. Miura*

279 Hepatolithiasis: An update *F. Nakayama*

287 Hepatic syphilis: An historical review *P. J. Davies*

295 The role of glutathione S-transferases in the metabolism of xenobiotics *T. R. Scott, N. M. Bass and R. E. Kirsch*

307 **Selected Summaries**

315 **Book Reviews**

317 **Notices**

Number 4 July/August 1988

Alimentary Tract and Pancreas

319 Diurnal variations in serum levels, urinary excretion and renal clearances of pepsinogen A and C *R. W. ten Kate, G. Pals. A. J. M. Donker, A. W. Eriksson and S. G. M. Meuwissen*

325 Identification of calcium-dependent, phospholipid- and calmodulin-activated protein kinases in rat small intestinal epithelium *G. Warhurst. G. S. Smith, A. Tonge, M. Lees and L. A. Turnberg*

337 Effect of diet on the clinical course and repair of the small bowel mucosa in infantile gastroenteritis *N. Iyngkaran, M. Yadav, C. G. Boey, L. L. Meng, S. D. Puthucheary and K. L. Lam*

345 Observations on peptic ulcer in Shan Dong, China *X-C. Zhao, J-M. Li and W-C. Peng*

349 Regulatory mechanism of bombesin on gastrin release *T. Azuma, H. Inokuchi and K. Kawai*

355 Endoscopic ethanol sclerotherapy in non-variceal gastrointestinal bleeding *S. E. J. Edmunds and B. H. Laurence*

Liver and Biliary

361 Defective suppressor function of spleen cells by neonatal thymectomy and persistence of experimental auto-immune hepatitis in mice *Y. Watanabe, K. Masuda, Y. Ikemoto, M. Kikkawa, T. Nakanishi, H. Kawakami and G. Kajiyama*

373 Epidemiology of hepatitis δ virus infection in China *K. Mai, M. Roggendorf, Z. H. Jin, S. Xiong, G. Zhao, G. Tian and F. Deinhardt*

Review Articles

379 Hormonal manipulation of gastrointestinal cancer by gut peptides *C. B. H. W. Lamers and J. B. M. J. Jansen*

387 Hepatic encephalopathy and the GABA/benzodiazepine receptor-chloride ionophore complex: An update *A. S. Basile and E. A. Jones*

Editorial Comment

399 Geographical variations in peptic ulcer *S. K. Lam and D. W. Piper*

403 **Selected Summaries**

411 **Book Reviews**

Number 5 September/October 1988

Liver and Biliary

413 Liver cancer in Thailand: Temporal and geographic variations *P. Srivatanakul, S. Sontipong, P. Chotiwan and D. M. Parkin*

421 Portographic changes with time in patients with extrahepatic portal venous obstruction

425 Hepatitis δ virus infection in India *A. C. Anand, B. M. Gandhi, S. K. Acharya, M. Irshad, Y. K. Joshi and B. N. Tandon*

431 Anti-HBs responses after combined injection of recombinant yeast and plasma-derived hepatitis B vaccines *K. Yoshida, S. Fujiyama, T. Sato and K. Mizuno*

437 Short Communication: Hepatitis B viral markers and liver disease in haemophiliacs: A study in an Indian population *K. C. Ramrakhyani, J. B. Dilawari, S. Verma, K. Ghosh, Y. K. Chawla, S. K. Bhandari and N. K. Ganguly*

Alimentary Tract and Pancreas

441 Deficiency of endogenous prostanoids in gastric and duodenal ulcer disease *T. Arakawa, H. Nakamura, H. Satoh, T. Fukuda, H. Sakuma and K. Koboyashi*

451 Effect of atropine on responses of exocrine pancreas and plasma cholecystokinin to intraduodenal amino acids in dogs *T. Shibata, T. Hayakawa, T. Kondo, Y. Sugimoto and M. Kitagawa*

457 Monthly variation in frequency of active duodenal ulcer and maximal acid output *W-M. Hui and S-K. Lam*

Review Articles

465 Mechanism of halothane-induced liver injury: Is it immune or metabolic idiosyncrasy? *G. C. Farrell*

483 Nutritional support in acute pancreatitis *G. Choudhuri and R. K. Tandon*

Historical Hepatology and Gastroenterology

489 Hepatology . . . . In the Valley of the Nile *S. A. Azer*

Editorial Comment

493 Viral hepatitis in India *K. Okuda*

497 Endoscopic haemostasis in upper gastrointestinal bleeding *H. Neuhaus and M. Classen*

501 **Selected Summaries**

509 **Book Review**

510 Report on the Symposium on animal Models of Portal Hypertension

511 **Abstracts**
Abstracts of the Asian Pacific Association for the Study of the Liver, Sixth Biennial Scientific Meeting, 13–15 February 1988, New Delhi, India

Number 6 November/December 1988

Alimentary Tract and Pancreas

549 Vasoactive intestinal peptide immunoreactive nerve fibres are deficient in intestinal and nasal mucosa affected by cystic fibrosis *D. A. Wattchow, J. B. Furness, I. L. Gibbins, K. E. Little and R. F. Carter*

557 Influence of intraduodenal chenodeoxycholic acid on secretory and pressure activity of the stomach and duodenum *I. A. Eyre-Brook, N. W. Read, A. Brownson and A. G. Johnson*

565 A morphologic study of gastric carcinoma in southern India *B. Ramakrishna, S. Kurian, M. M. Mathan and A. Bhaktaviziam*

573 Chilli ingestion does not lead to macroscopic gastroduodenal mucosal damage in healthy subjects *J. Y. Kang, I. Yap, R. Guan and T. C. Lim*

577 Cell-mediated immunity, malnutrition and plasma zinc levels in adult coeliac disease *G. R. Corazza, C. Prati, P. Mulè, M. Martelli, G. C. Sturniolo, A. Martin, D. Quaglino and G. Gasbarrini*

Liver and Biliary

583 Natural history of hepatitis B surface antigen-positive cirrhosis in Taiwan: A clinicopathological study *S-L. Tsai, P-M. Yang, M-Y. Lai, D-S. Chen, H-C. Hsu, T-H. Wang and J-L. Sung*

593 Clinical utility of a simple quantitative determination of hepatitis B e antigen *K. Kurai, S. Iino, H. Oka, S. Naito and F. Tsuda*

601 Atrial natriuretic peptide in alcoholic cirrhosis *L. J. Wood, D. Massey, J. C. Colman and F. J. Dudley*

Review Article

611 Hydatid disease: A global health problem still to be solved *M. A. Gemmell*

Special Articles

623 Pharmacogenetic aspects of biological variability *A. Küpfer, T. Zeugin and R. Preisig*

635 Portal hypertensive gastropathy *J. N. Baxter and B. R. Dobbs*

Editorial Comment

645 Cystic fibrosis: A disorder of biological signal transduction *D. I. Cook and J. A. Young*

Case Reports

657 Nodular regenerative hyperplasia of the liver diagnosed by needle biopsy of the liver: Report of a case and review of the literature *A. Terano, Z-I. Honda, J. Shiga, O. Kohmoto, K. Matsumoto, H. Hiraishi, S-I. Ota and T. Sugimoto*

663 Acute hepatitis due to etretinate *M. A. Kamm, D. A. Davies and K. J. Breen*

Abstracts

667 Abstracts of the Asian Pacific Association for the Study of the Liver, Sixth Biennial Meeting, 13–15 February 1988, New Delhi, India
